

'Look at Us Now!'
Innovations in Metal Clay

The 2012 PMC Conference Exhibition

The 2012 PMC conference exhibition will be a prime time virtual exhibition slideshow of the latest, best work being done in metal clay. Innovation, excellence of design, and integration with other materials will be the hallmark of this show. Pieces can be made with any type of metal clay and combined with any type of other materials. Crisp, clear images are a must, and work that has not been seen in other venues is preferred. This show will be on CD for all conference attendees to take home, assuring that the work included here will have significant and lasting exposure.

Fill out the form below for up to six pieces and send along with a CD of images to the address at the right. If images are less than 2 MB, they may be sent as email attachments to director@pmcguild.com.

Photos should be

- Focused, properly lit, on a neutral background
- JPG format, RGB color setting, 100 dpi (dots per inch)
